

The Careers team have had a busy first term arranging multiple trips and opportunities. Our students have taken part in a successful workshop with Linklater's HR volunteers. They also participated in a speed networking session where students learnt all about the world of HR, whilst tackling two live briefs, one on recruitment and the other on health & well-being. Students were extremely motivated and engaged throughout the workshop and all presented their findings at the end in an articulated manner.

Our students are currently participating in the Société Générale Influencer Programme. The program is designed to improve our student's soft skills, and give them confidence in working through a project brief.

The areas of development are:

- Problem Solving
- Communication
- Professionalism
- teamwork

Students have taken part in two sessions already and are set to continue until June of this year with a final pitch day to the CEO.

The Careers team hosted its first Careers Fair. The fair was aimed at students looking to learn more about Apprenticeship and Internship schemes. We had employers from:

- Reed Specialist Recruitment
- Bart's Health NHS Trust
- Aston Group
- British Army
- Mile Rainbow CIC
- Novasecta
- Waltham Forest Council

Our first Skills Challenges Week took place between the 13th - 17th of November 2023. Skills Challenges Weeks have been designed to assist Level 2 students in preparing for the world of employment by delivering workshops to them on how to write a CV, enhancing their communication skills, and problem solving in teams and individually. During the week students attended a trip to 22 Bishops Gate. Students were given a breath-taking 360-degree view of London whilst having lunch on the top floor. They also met the HR team alongside the CEO. Students were given an insight into the various companies that reside within 22 Bishopsgate.
